PRESERVING OUR HISTORY ONE PERSON AT A TIME

Preserving our Tribal history gives us tools with which to teach the lessons of our past. History can include artifacts, documents, photographs, visual and audio recordings, whether from long ago or the more recent past.

It is crucial to the Tribe that we gather these historical materials while those who remember the events can describe them, and those who remember the people can name them.

The Tribe has begun to create a digital archive of all of these treasures, to ensure that these memories are preserved for generations to come.

You can help by bringing us whatever S'Klallam-related artifacts, photographs, documents, or other media you have available, so that we can scan or photograph them.

Please provide the information at right so that we can contact you to arrange a convenient time to meet with you. Send your contact information to:
